Prasna Astrology – Vedic Horary – The Astrology of Omens – Video Course Prasna is an excellent tool to answer our pressing questions in life. Not everyone needs a full astrological birth chart reading. Sometimes we just have one or two burning questions that need answered to help us deal with a situation or gauge if this is the right time or not to take action. By constructing an astrological chart for the moment a question is asked, gives us insights into the results of taking a certain action. This is the most accurate form of astrology in our current age, because it does not require a client to have an accurate birth time, or even a birth chart at all (although that can be helpful). This course contains nearly 8 hours of video, using example charts and student interaction to delineate and explain the proper approach to begin practicing Prasna Astrology. In this class, we will learn the basic principles to begin answering questions using Prasna. Click Here for More Information \_ How will the life of Vishnu unfold through time and space?
